Can I use Nux vomica-Homaccord for detoxification?
Nux vomica-Homaccord normalizes intestinal functions and therefore it plays a major role in detoxifying the body. In combination with Lymphomyosot (which acts on the lymphatic system) and either Berberis-Homaccord or Reneel (which act on the liver and kidneys), it is used worldwide as an effective detox therapy.

How long does this detoxification therapy take?
Six weeks is the recommended detoxification period.

Can I combine Nux vomica-Homaccord with other medications?
Nux vomica-Homaccord may be used alone or in combination with other homeopathic or allopathic medications. It is not known to interact with any other drugs.
Effective Treatment

An international cohort study conducted in four European countries investigated the efficacy of Nux vomica-Homaccord drops. The 1,153 patients participating in the study suffered from either gastric symptoms (group 1), intestinal symptoms (group 2), or GI symptoms resulting from consumption of alcohol, coffee or nicotine (group 3). Overall efficacy of Nux vomica-Homaccord was rated very good or good in more than 80% of cases. 1)

Convincing results

In a prospective cohort study, 541 patients suffering from functional gastrointestinal disorders and constipation were treated with Nux vomica-Homaccord ampules, either in monotherapy (65% of cases) or in combination with other therapies (35%). Overall results revealed good to very good efficacy in 89.1% of total cases and 88.3% of monotherapy patients. A good to very good tolerability was revealed in 98.3% of cases in both groups. 2)

Functional gastrointestinal disorders

Functional gastrointestinal (GI) disorders, the most common gastrointestinal problems seen by primary care physicians, affect millions of people of all ages – men, women, and children. Much remains unknown about these disorders and there is generally no evidence of organic or physical disease. So finding an effective therapy is largely a matter of trial and error in each individual case.

Treatment is greatly simplified by using an extremely well tolerated medication with a broad spectrum of efficacy. Nux vomica-Homaccord is a homeopathic combination preparation especially formulated to treat:

- Digestive disorders
- Functional liver disturbances
- Constipation
- GI symptoms resulting from consumption of nicotine, alcohol or caffeine

Nux vomica-Homaccord® - Drops · Injection solution

Composition:

Drops: 100 g cont.: Nux vomica D2, Nux vomica D10, Nux vomica D15, Nux vomica D30, Nux vomica D200, Nux vomica D1000, Bryonia cretica D2, Bryonia cretica D6, Bryonia cretica D10, Bryonia cretica D15, Bryonia cretica D30, Bryonia cretica D60, Bryonia cretica D1000 0.2 g each, Lycopodium clavatum D3, Lycopodium clavatum D10, Lycopodium clavatum D30, Lycopodium clavatum D200, Lycopodium clavatum D1000, Citrullus colocynthis D3, Citrullus colocynthis D10, Citrullus colocynthis D30, Citrullus colocynthis D200 0.3 g each.
